

# DELHI PUBLIC SCHOOL FARIDABAD

---

August 29, 2014

**Dear Parent**

**“Few things help an individual more than to place responsibility upon him and to let him know that you trust him.”**

**- Booker T. Washington.**

I am sure you will agree that students are not passive recipients. We consider them the most important resource at school and would like their active involvement in all school events. We would like to put responsibilities on their young shoulders from this age itself so that they grow up into responsible adult citizens of the country. The creation of the Students' Council is a step in this direction. It is an important component of the school fabric. It is an honour for those who have been inducted into the Council and a target to be achieved by those who will make it into the Council in the years to come. So, we would like not only the Student's Council members but each child in the school to take on himself the onus of the discipline in his class and in all related matters. For example, seeking the time table Incharge's help for substitution, reporting misconduct and exemplary behaviour, both, to the authority, encouraging the use of English in school, helping their peer group and so on. The students must understand this role not as a duty but as a responsibility that benefits them and the school.

We seek your cooperation in helping to make our children worthy of their place in the society.

**Principal**
